29. US Government. - *Protocols of the Elders of Zion, A Fabricated "Historic" Document - A report prepared by the Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws to the Committee on the Judiciary, United States Senate.* Washington US Government 1964. Original wrappers, 8vo., iii + 3 + index. The Protocols can be said to have been, largely, copied almost word for word from an 1864 satirical text attacking Napoleon III. This text was Dialogue aux enfers entre Machiavel et Montesquieu. Also heavily used was the 1868 novel, Biarritz, by Hermann Goedsche in which the Devil appears before representatives of the Twelve Tribes of Israel at the Prague Jewish Cemetery, to plot a "Jewish conspiracy."

Between 1897 and 1903, the Protocols author created this document. We are unsure as to who wrote the tract, although Pyotr
Ivanovich Rachkovsky, head of the Paris office of the Russian Secret Police has been implicated. It was widely distributed in Russia and the US and around the world. Its fallout is still felt today, with some still believing the document to be actual truth. The document itself was proved swiftly to be completely baseless, exposed as "a clumsy plagiarism," in several articles in The Times in 1921. [ref: 5019] £85

London & Berlin A Asher & Co. 1840, 1841.
In 2 vols 20cm, 22cm. Volume one is quarter leather over paper covered boards, volume 2 looks like the original paper covered boards with a cloth backstrip and is ex-library. The volumes were issued at different times which may explain the different sizes. Volume 1 is 165 + 122 pp and includes the Hebrew text and translation. Vol 2 is 448 pp and consists of notes and essays. Marcus Adler who issued an edition of the Itinerary regarded Asher’s edition as the best edition of the diary of that traveler. “The first volume appeared in 1840, and contained a carefully compiled Hebrew text with vowel points, together with an English translation and a bibliographical account. A second volume appeared in 1841 containing elaborate notes by Asher himself and by such eminent scholars as Zunz and Rappaport” (Adler). It also contains valuable essays. Marcus Adler had access to a couple of additional manuscripts. The Itinerary of Rabbi Benjamin of Tudela is one the most famous and important Jewish travelogues. He was a medieval Jewish traveler who visited Europe, Asia, and Africa in the 12th century. His vivid descriptions of western Asia preceded those of Marco Polo by a hundred years. An uncommon edition of this work.
